Art Unit: 2661

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7 and 13-18, and extremely broad claim 19, drawn to a method and apparatus for updating IAP data.

Group II, claim 8, drawn to a method of selecting settings and sending setting data via the Internet.

Group III, claim 9, drawn to a method of retrieving settings from a server and sending setting data via a mobile network.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The group I is directed towards a method of updating IAP data using broadcast data, whereas group II is directed towards sending setting data via the Internet, and group III is directed towards sending setting data via a mobile network.

3. A telephone call was made to Robert Walters on 7/24/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
